

# TOUCH HD

See more. Feel more.  
Experience more.

## Entertainment on the go, in your hand

Be inspired by the ultimate cinematic experience that will touch your soul and delight your senses. Be entertained, more than ever before.

With a touch sensitive 3.8" wide screen (WVGA) display, the Touch HD™ puts power in the palm of your hands, whether it's managing your entire work load on the move or simply logging on to Facebook to stay in touch with friends.

3.5G technology means that the Touch HD™ will move as fast as you do, keeping up with your busy lifestyle as it delivers download speeds of up to 7.2 Mbps on HSDPA networks. Now you will have instant access to online news, videos, music and e-mail, while a simple touch on the new "Stock" tab is all it takes to update you on the latest developments in the stock exchange. The home screen puts e-mail, messages and your calendar a finger-stroke away.

So get your hands on the Touch HD™ and experience life in High Definition.

## Key Features

- **3.8" wide screen (480 x 800 WVGA) display**  
A sleek compact design, for a cinematic experience on the go.
- **HTC TouchFLO™ 3D touch screen user interface**  
For instant content access when you slide your finger across the screen.
- **5 megapixel auto-focus camera**  
For quality stills and video.
- **3.5mm audio jack**  
Compatible with most audio equipment. FM radio, speakers and microphone.
- **Excellent internet browsing experience**  
Full page browsing experience, with ultra fast 3.5G connectivity, for true download speeds on HSDPA and HSUPA / WCDMA networks.
- **Bluetooth® 2.0 EDR and microSD™ slot**  
Bluetooth® with an enhanced data rate. Expandable storage means you can save your pictures, music and important files onto a microSD™ card.
- **Windows Mobile® 6.1 Professional**  
Windows Mobile 6.1 makes it easier to stay connected and manage your busy life — from just about anywhere. When you text with a friend, the messages thread together, just like instant messaging.
- **Wi-Fi® Connectivity**  
Connecting to a Wi-Fi® network is now simpler — no more scrolling through multiple pages; a single click and you're connected.
